As a follow up to the March 2nd Principals' meeting on the President's Infrastructure Initiative, we will be gathering in EEOB 472 at 2:00 p.m. on March 15th. The purpose of the meeting is to lay out in more detail how we plan on organizing this effort and the data gathering and policy coordination it will entail. This will be the first of many meetings as we try to pull together an integrated approach to infrastructure.

Attached please find an agenda for the meeting and list of participants (if you would like to add a participant, please contact Austin first as space is limited), the memo and presentation handed out at the Principals' meeting on March 2nd, some background on FPISC, and an Executive Order on high-priority projects.

In terms of your involvement, we would like to hear any ideas you have that fall into 6 categories outlined in the attached memo. This meeting will not be long enough for us to discuss any ideas in depth. Instead, I would prefer to have you just give the group bullet points on potential avenues of exploration; so we are able to develop some synergy as a group.

If you have any questions, please reach out to Austin at

Ryan,

Coming to you first, and wanted to see if you have time to meet in the next week or so or if you could point us in the right direction for a meeting at EPA, especially on RCRA.

Our client Bloom Energy, a fuel cell manufacturer that runs its fuel cells on natural gas, has tried to work through EPA regulations and we would like to come in and discuss. Here is the short version: Bloom uses a de-sulfurization unit to extract sulfur from natural gas as it enters the fuel cell stacks. In doing so, the units capture a trace amount of benzene, a regulated chemical.

We'd love to talk to you or someone on your staff about this and can bring their General Counsel either next week (the 20-24) 27th or after April 4th. Let me know what works on your end.

Thanks,  
T.A.
